

# OFFSET DISCS

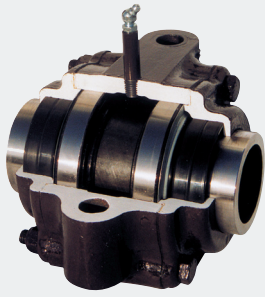

FARMGARD 

## CIH

110-150 HP

Offset Forge de Niaux disc blades – the first ever made from boron steel – unleash a knock-out punch against weeds, crop residue and difficult soil. Fully trailed with a double acting lift ram, and cursor for depth control. Blade weights up to 77kg per disc, make the CIH ideal for breaking in virgin country, while also suited to crop residue incorporation and seed bed preparation.

5 year bearing warranty

Parallel lift system

Gang angle adjustment

Leveling control

6mm discs with up to 77kg preparation weight

Flotation tyres
