FARMGARD
ROBUST **MACHINERY** THAT WORKS

Rough. Rugged. Robust.

PRE-RIPPER

CULTIVATION IS JUST GETTING BETTER WITH FARMGARD'S RANGE OF RIPPERS.

This Ripper is as strong, rugged and robust as it looks. Tough enough to tear up whatever comes in it's way, owing to it's heavy duty and durable construction. With a Pre-Ripper added to your cultivation range, you'll find cultivation easier than ever before. They're an investment for every farmer.

FEATURES

- Height adjustable to suit ground conditions
- Up to 300mm deep (Optional 410mm with 575 legs)
- Adjustable linkage positioning
- High-wear replaceable ripper teeth
- Safety shear bolts
- Breaks up plough pan
- Reduce wear and tear on machine, tractor hours, and fuel consumption
- To suit Power Harrow, Rotary Hoe or Spike Rotor
- New Zealand made

Model	Legs	Suits Width	Overal Width
PR 250-4	4	2.5	2.3
PR 250-5	5	2.5	2.3
PR 300-4	4	3	2.7
PR 300-7	7	3	2.7
PR 350-7	7	3.5	3.2

"I really recommend it – it's a great machine that allows farmers to get the most out of their cultivation programme."
The pre-ripper is designed to fit most common makes and models of power harrows, spikes rotors and rotary hoes. It breaks up hard pans and aerates soil with ease and allows cultivating in a single pass which saves tractor hours, fuel, time, and wear and tear on other implements.
