

SPIKES ROTORS

FARMGARD 

E

50-100 HP

The Celli fixed-width spike rotor harrow has solid boron spikes at an angle that penetrates ground using minimal power. Because it was first designed for stony ground, the machine can take rough conditions. The tailgate traps soil, so it's released as a fine tilth. A suitable seedbed is often created in one pass.

Robust headstock

All gear side drive

Rear packer roller

Boron spikes

Multi position scroll tailgate

Heavy duty gearbox

Features:

- Special New Zealand build spikes rotor for narrow rows
- Drive units designed and produced entirely by Celli enabling complete quality control over all componentry and workmanship
- Steel face to face rotor seals for longer lasting rotor bearings
- Robust headstock for a stronger, longer lasting rotary hoe
- Box section body for rigidity and long life
- Oil filled rotor bearings for low maintenance and guaranteed lubrication
- Four speed gearbox rated up to 100 hp
- Swinging lower links
- Gear side drive
- 170mm long boron spikes
- 250mm working depth
- Scroll tailgate
- Slip clutch
