

TWIN AUGER

20m³

The 20m³ twin vertical auger mixer wagon is ideal for operators who want more capacity without extra height, while maintaining quality and heavy-duty construction. Despite the extra capacity, the VF2000 is a compact unit, and ideal for chopping high density material. The unique augers are designed to allow a quick mixing time, with minimal horsepower requirement.

Independent chassis to allow for large torque loading

20mm floor for extra strength

Rolled walls for superior mixing

Electric in cab control box

1m wide feed door for even feeding

Slat and chain elevator, low maintenance

Specifications:

- 20m³ capacity (19m³ to top of tub, 23m³ to top of rubber extension)
- Twin vertical auger with 7 manganese boron knives per auger
- Single axle with 435/50 x 19.5 Iotation tyres
- Right and left side discharge doors
- 560mm long slat and chain discharge elevator (mounted on RH door)
- Electric in cab control box for all functions (1 DA hyd bank required)
- Large counter knives
- Electronic scales with cover over scales
- 4 weigh bars on independant chassis
- Hydraulic brakes
- LED rear lights
- Wide angle PTO shaft with shearbolt protection
- Two speed gearbox with manual changeover handle
- Comer SOM planetary gearboxes, with 3-year warranty
- Rubber top extension
- 3 stage HD winding jack
- Galv ladder mounted on LHS
- 15mm auger lighting
- 8mm ST 52 wall
- 1 year warranty

OPTIONS:

- Front elevator and platform (shown above)
- PVC side elevator
- Auger magnets
- Fibre knives
- Hydraulic counter knives
- 22mm augers
- Hardox wear plates
- Chromium-carbide coated knives
- Wall liner

Overall height	Overall height without rubber extension	Overall length	Unladen weight
3000mm	2760mm	7000mm	7500kgs
Overall width with elevator open	Distance from wheel to edge of elevator	Tub height	Tub base to ground
3145mm	640mm	2060mm	960mm
Discharge height (elevator down)	Turning circle (hitch to wheel)	Tub top opening length	Overall wheel width
800mm	4680mm	5100mm	2250mm
